The impact of minerals mining on U.S. jobs and the economy

The estimated value of key undeveloped U.S. mineral resources...

\$6.2 TRILLION

In 2011, U.S. mines produced raw materials worth...

\$74 BILLION

Which were used to process **\$633 BILLION** worth of mineral materials

Industries Including

Turn minerals into innovative products that grow our economy

\$2 TRILLION

greater than

Roughly 15% of GDP in 2011

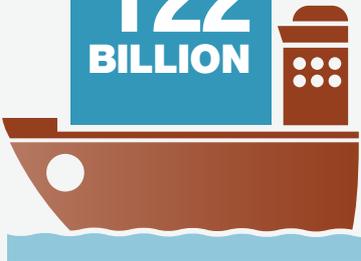

Amid a record job loss decade, metal ore mining jobs have increased...

10%

in the last ten years

Each Year, minerals and materials processed from minerals account for exports worth more than...

\$122 BILLION

In July 2011, despite 9.1% unemployed nationwide...

9,

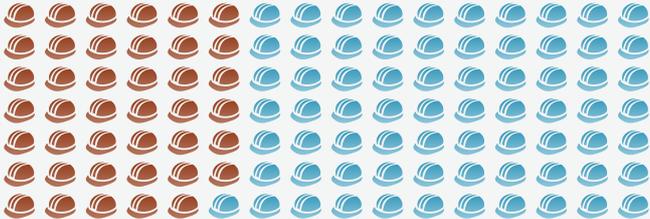

Americans found jobs in mining including mineral mining

Minerals mining supports more than **1.1 Million American Jobs**

410,000 Americans directly employed through minerals mining

710,000 Americans indirectly employed through minerals mining
