Twin Metals is excited to announce the new and improved site as it provides additional information in a variety of formats for stakeholders. Some of the new features of the website include:

- Rotating media window
- Updated news section
- Downloadable information about the project
- Information about current and future job opportunities
- Ways to connect with Twin Metals
- Importance and uses of strategic metals
- Educational resources

In the coming months, additional interactive features and information will be added to the site to help further educate users about mining and the Twin Metals project.

Alongside the new website, Twin Metals will continue to provide information for all stakeholders through a variety of avenues including the Twin Metals Facebook page, the bi-weekly Mine Reader, WELY radio spots and electronic newsletters.
